

Ntein Praises Ankinimbom

AI Automation Engineer

UTC+1 • [Portfolio](#) • [Email](#) • [LinkedIn](#) • [Github](#)

SUMMARY

AI Automation Engineer with 4 years of experience designing and deploying production-ready AI agents, automated workflows, and end-to-end business automation systems. Proficient across the full automation stack: AI agent design, multi-step workflow development, LLM integration, API connectivity, process automation, and CRM systems, with a track record of improving business performance by up to 30% through automation. Experienced translating complex, undocumented business processes into reliable, scalable systems that perform work autonomously. Fluent in English and proficient in French.

SKILLS AND TOOLS

AI & Automation: AI Agent Design & Deployment, Workflow Automation (n8n, Make, Zapier), LLM Integration, Prompt Engineering, RAG Systems, Vector Databases, Chatbot Development, Process Automation, API Integration, OpenAI, Claude (Anthropic)

CRM & Business Systems: GoHighLevel, Airtable, Google Sheets, CRM Automation, Customer Journey Automation, Email & SMS Workflows, Marketing Funnels

Development: Python, JavaScript, TypeScript, Node.js, React, SQL, PHP, HTML, CSS, WordPress

PROFESSIONAL EXPERIENCE

UTIVA

United States (Remote)

AI AUTOMATION DIPLOMA

May 2026 - August 2026

- **AI Booking & Support Agent:** Designed and deployed a full end-to-end AI booking agent for a beauty and spa business using n8n and Make with a vector-based knowledge base, enabling autonomous appointment booking with zero double-booking and automated follow-up flows.
- **Resume Analysis Agent:** Built an AI-powered recruitment tool that analyzes resumes, scores applicants, and automates candidate follow-up and meeting scheduling, reducing manual screening time significantly.
- **AI Social Media Content Generator & Auto-Publisher:** Developed a workflow that generates structured AI content from user inputs, routes it for review, and publishes automatically across platforms, removing recurring manual content work.
- **Content Intelligence Engine:** Built an n8n research pipeline that collects real-time trends from multiple sources and delivers content opportunities through a dedicated frontend dashboard.
- **Business Process Automation:** Designed automation scenarios connecting forms, databases, AI models, APIs, and communication tools into structured, end-to-end automated business pipelines.

ABOOVA DIGITAL SOLUTIONS

United States (Remote)

Software Engineer / Automation Developer

January 2023 - June 2026

- **AI Agent Development:** Designed and deployed AI sales and support agents using n8n and GoHighLevel, integrating knowledge bases to give agents structured access to business context, enabling autonomous conversation handling and appointment booking.
- **Workflow Automation Management:** Managed automation workflows across 7 business client accounts including email campaigns, SMS sequences, CRM pipelines, marketing funnels, and multi-step customer journey automations.
- **AI-Driven Lead Automation:** Built automated lead engagement pipelines using Python and AI across SMS, email, and calls, improving lead-to-client conversion rates by 15%.
- **Backend & CRM Engineering:** Integrated customer data with SQL-based CRM systems, connecting payment and review processes to improve client retention by 20% across production environments.

- **Product Development:** Delivered 10 full-stack client websites in 4 months using Node.js and React, increasing client acquisition by 5% through optimized features and performance.

SOFTGRID SOLUTIONS

Pakistan (Remote)

Web Development Intern

June 2026 - August 2026

- **Web Development:** Built 5 business websites from scratch in a 3-month internship, handling UI/UX design, development, and deployment end-to-end.
- **Business Impact:** Optimized client websites contributing to a 30% increase in client revenue and 20% improvement in online presence through enhanced performance and UX.

GAO TEK INC.

United States / Canada (Remote)

Web Development Intern / Assistant Squad Leader

June 2026 - September 2026

- **Web Development:** Built and maintained business websites using WordPress, PHP, HTML, CSS, and JavaScript, delivering 10-20% improvements in client business growth metrics.
- **Promoted to Assistant Squad Leader:** coordinated interns, tracked task progress, and ensured project delivery within deadlines.
